Revolutionary War Patriots Buried in Ohio

Updated 7/2020

The records contained in this Roster were begun with those presented by the Daughters of the American Revolution and the WPA to the State of Ohio as a tribute of respect to the hardy pioneers who transplanted to this State the noble ideals for which they fought from 1775 to 1783, and who now sleep the last sleep beneath its soil, in 1929. They were amended by other sources described in the bibliography at the end of these records and data posted on the National Society of the Sons of the American Revolution, Patriot & Grave Index website. Most have been vetted by the National Sons of the American Revolution's Patriot Grave Registry and assigned a unique "P" number. Others await additional research to provide the proper service and personal data to meet at least the minimum standards.

Edited by **Ohio Society Graves Committee** Chairman, Michael B. Gunn, & Vice Chairman, Michael Blum, beginning 2015. We expect to gather about 7000 Patriots who were buried in the State of Ohio.

The Data contained within this Registry represents a compilation of numerous sources, and is NOT TO BE USED as direct proof on SAR applications. However, this data may point you to the actual sources which may be usable as proof on an SAR application. Refer to the NSSAR Application Preparation Manual and NSSAR Genealogical Committee Policies Manual for the specifics of acceptable proof on a SAR application.

Subsequent additions were made to the data from research performed by various Chapters of SAR in Ohio utilizing references listed in the bibliography listed at the back of the presentation. Those entries may be identified by longitude/latitude listed in the header. **We ask Ohio Society Members to encourage search for Patriots buried in the Counties not yet researched, so we may have a more complete Registry of our States' Revolutionary Patriots.** ED.

These are the 88 Ohio Counties Researched & Listed in the OHSSAR Grave Registry to date with the number of patriots in each listed.

ALLEN, ADAM, (Fayette County) [39.610759 -83.590533]

Br 1754, Pennsylvania. Served as a Private, Volunteered from PA, later Washington's Aide and at the Battles of Monmouth and Branywine. He Married 1) Elizabeth Kyger, 2) Nancy Gardner; Children: Elizabeth, William b. 1808, Adam, Ethan, Aaron b. 1818, Betsy, Elijah b. 1804, and Sarah b. 1817. At the close of the war he went to the state of Kentucky where he ran the Upper and Lower Blue Lick Salt Works. Here, we are told, may be seen a few mementoes and personal possessions that belonged to Adam Allen. But he must have farmed too; and to prove that other records exist: Henry Storm, William Weaver and Henry Weaver of Mason County, Kentucky, leased the south end of James Ralph's plantation "to cleare and improve as the' see fit" and to have six crops from the land. Then Henry Weaver and Henry Storm, restless adventurers, pushed on to Ohio, but not without assigning their lease to William Weaver and Adam Allen. The date when Henry Weaver and Henry Storm left Kentucky appears to have been near 27 January 1796. Also it would appear that William Weaver fulfilled the terms of the lease, a matter of a few years, and then came to Ohio to what is now Clark County, where he took up 100 Acres of land in Section 17, Town 4, Range 10. His land- lord was William Ross Jr. and his witness to the transaction was Elijah Weaver, known to be William's son. The date was 24 December 1806. Adam Allen appeared to move with the Weaver families. It was John Grover of Mason County, Kentucky, who entered into an agreement with Henry Miller of the state of Ohio and county of Champaign (land now in Clark County) for a term of four years for land in Section 15 Range 10 T 4. The date was 17 August 1807. This lease was signed over almost immediately (31 August 1807) to Adam Allen who added his mark on the reverse side with the statement: "I Do agree to Discharge the within note August the 31, 1807. The witnesses were Elijah Weaver and Christopher (X) Weaver. The lot upon which he was to live contained twenty acres and was in the vicinity of William Weaver's 100 acres.
We hear of him next during the War of 1812 when he undertook to organize a company. When they reached Detroit, however, hostilities had ceased. He went, then, to Fayette County where he settled the town of Octa.
He Died on Aug 27, 1851, near Milledgeville, OH and Buried at Coons or Koontz Cemetery, Milledgeville, Jeffersonville, OH 43128. "Adam Allen a soldier of Revolution, entering Army of Washington in 1776. Fought at Monmouth and Brandywine." GM by family, in 1852. A farmer. Although Adam Allen belongs in Fayette County, his descendants in Clark County are pleased to record his sojourn of several years in the latter county.

He died in 1845 and buried at the Painter-Stuckey Cemetery, Fayette County, OH. In "Bender-Bainter-Painter Smith and the Allied Families of Phillipson-Marino-Alioto" by Joseph Linn Marino, it is stated that Henry Painter was born Johann Heinrich Bender and that he joined the German Regiment at age 17. However, the pension application of one Henry Painter in Nelson County Virginia makes it abundantly clear that he was the Henry Bender who served in the German Battalion under Colonel Weltner. The plaque, it seems, was placed in error. The only proof we have of his service in the Revolutionary War is by bios written about his children and grandchildren stating that their ancestor Henry Painter was a soldier in the War of Revolution. As of 2016, DNA testing seems to have proven he was not the son of Johann Georg Bender from Mount Joy Township, Lancaster, PA. Research on this is still pending. Bland and he continued to serve this company for some time. He took sick at E and remained

there about two months until he recovered. When returning home he came across a Regiment of Horse under the command of Gen. Sumpter near the Turkey Seedyford on the Catawba River. He joined this Regt. in the Company commanded by Capt. B---ford and remained here until sometime in the month of August 1780 when he was made prisoner at Rockyford about 8 miles from Compton by Col. Tarlton. An order was sent by Col. Tarlton to Boothe Boot Co. of pro- visions to give John a parole which he received and then returned home. He was in the battles of Short Hills, Brandywine and Germantown. He married ____ (1772-_); children: Henry, Abraham, and others. In Butler County, Ohio, Mathias Roll and in Hamilton County, Ohio, Abraham Roll each stated they were raised from boyhood in the same neighborhood of Morris County, New Jersey, with John Boltenhouse. Both Mathias and Abraham Roll knew that John served in the Revolutionary War on the Continental Establishment two years after his enlistment because they were in the service at this time. They lost track of him when his regi- ment was sent southward but both were certain that he did not return to his native state until after the conclusion of peace in 1783.
At the age of 59 years he applied for his pension on August 7, 1820, in Miami County, Ohio. In his application he lists his property as one horse, one colt, one cow, one heifer, two calves, three hogs, twelve pigs, four sheep, one com plow, one wooden harrow, two oxen, two hoes, one hand saw, two apugers, one drawing knife, two tea cups, four saucers, four plates, and one table. He stated that he is by occupation a farmer but unable to perform more than half a days labor due to a soreness in one of his legs, and but one eye with which he can see.
His family consisted of his wife aged 47 years who is afflicted with rheumatism which deprives her of her rest a great part of the time. One of his sons, Henry, age 17 years who has a failing in one of his legs which renders him incapable of laboring for three or four days at a time or even a week or more. His other son, Abraham, age 12 years has a permanent weakening in one of his wrists which renders him unable to hold anything of any weight in that hand. Due to this he is not able to be of any service to his father.
His applicaion for pension was approved and issued on the 22nd of December, 1824, in Miami County, Ohio S42630. He died July 31, 1825 in the 72nd year of his age. BOOSINGER (BUESSINGER), CONRAD (Summit County) [41.06777 -81.42500]

Born in 1752. He served as a Corporal with Pennsylvania in the Revolutionary War. He married Catherine Barbara Yancer (1753-1841); children: Barbara, Matilda 'Tilly', Catharine, Christina, Epha, George, John, Polly, Christina 'Teney', Conrad, Sarah 'Sally', Susan, Rachel and Jacob b. 1797. C.C.Bronson, the noted Tallmadge historian, wrote in his notes that Conrad was born on the "Susquehanna about 1752". According to family folklore, Conrad was probably the eldest son of Johannes Buessinger. If Conrad were living today, people would say he was 'Pennsylvania Dutch'. The man who many historians believe was Conrad's father, Johannes Buessinger, boarded the ship Harle in Rotterdam, Germany when he was single, twenty-five and a Palatine. The ship Harle reached Philadelphia, Pennsylvania on September 1, 1736.
During the mid-1750s an Indian conflict that began with the 'Walking Purchase' escalated

when the French and Indian War started. In Europe, the war was better known as the Seven Years War. In America, this war pitted the French and Indians against the English colonists. In an attempt to defend themselves, the English colonists built a series of forts along the Blue Mountains between the Delaware and Susquehanna Rivers. It was during an Indian raid above the fort at Allemingle near present day Albany that Colonel Weiser tried to give some assistance to the English settlers. He gathered Johannes Buessinger along with other volunteers from the Weisenberg Township and marched to where the raid was taking place. After the skirmish, Colonel Weiser wrote a note in his journal dated January 4, 1756, that the Indians had killed three of his men including our Johannes at 'John Evert's place'. Conrad Buessinger was probably raised near the Weisenberg Township in Lehigh County, Pennsylvania (a Pennsylvania Dutch community). Even as late as 1900, German was the only language spoken at the only two schools in Weisenberg. Perhaps that was why Conrad, even as an adult, spoke with a heavy German accent. Conrad was a devout Lutheran all his life. His children said that before eating supper it was customary for Conrad to lead his family in prayer. According to his children, he always said his prayers in German. In the 1770s Conrad earned his living as a farmer and tanner in the Penns Township of Northumberland County, Pennslyvania. Tax records show he owned 100 acres, a cow and two horses.
During the American Revolution Conrad joined the patriot cause and served in the Pennsylvania line as a teamster (wagon driver). Family folklore says he fought at the Battle of Brandywine. However, my research hasn't proven that piece of family trivia yet. Historians do know that he enlisted at least three times into the Pennsylvania line. During his first known enlistment he served a corporal in the 3rd company of the 6th battalion in 1778. In 1780 he was a sergeant in the 3rd company of the 6th battalion. Then in 1782 he served as a private in the 3rd class of the 3rd company of the 6th battalion. After serving on the Pennsylvania line, Conrad would complain for the rest of his life that the rheumatism he experienced was due to the time he spent in the service. He died on August 25, 1827 and buried at (Pettibone Farm) Boosinger Cemetery, Summit County, OH. National Historical Magazine. DAR. 1941.

BRITTLE, THOMAS (Tuscarawas County) [40.639586 -81.455061]

Birth site in Virginia and Date is unknown He served as a Private in the 13th Virginia Regiment in Colonel Campbell's Company commanded by Colonel John Gibson for at least October to February 1779 in OH. He died on February 23, 1779 with a group who were ambushed while gathering firewood at Fort Laurens and killed by Indians under the command of the British. The Americans completed the construction of Fort Laurens—named after Henry Laurens, president of the Continental Congress—in early December 1778 under the command of General Lachlan McIntosh. The fort, built on the west bank of the Tuscarawas River was to serve three purposes. First, the Americans hoped to use Fort Laurens as a base to attack the British garrison located at Detroit. Second, it would hopefully deter American Indians loyal to the British from conducting raids against American settlers in eastern Ohio and western Pennsylvania. And finally, by offering protection to the neutral Christian Delaware's, the Americans might convince them to forsake their neutrality and join the patriots' cause.
In total, 21 soldiers lost their lives at Fort Laurens after a handful of British soldiers and a couple hundred Wyandot, Mingo, Munsee, and Delaware warriors laid siege to the fort before it was abandoned in 1779. Later, part of the fort was demolished during the building of the Ohio and Erie Canal. Currently none of the original fort remains above ground, but the outline of the fort is visible.

BROKAW, GEORGE, (Belmont County) [40.1556015 -80.9953003]

George Brokaw, born 29 March 1755 Somerset, Co., N.J., lived there and in Sussex County, where, on Nov. 19, 1776, he enlisted in the Revolutionary War. (War Rec. No. R-1232.) In his Application for a pension, in 1832, Harrison Co., Ohio, he gave date of enlistment, etc., stated that he was born Somerset Co., N.J. and was living in Sussex Co., when enlisted; that he moved back to Somerset Co., in 1777, after his discharge. In 1781 returned to Sussex Co., and remained several years, then moved to Beavertown (Beasom Town), Fayette Co., Pa. Five years later, to Washington Co., Pa, and three years later Jefferson Co., Ohio and six years later to Harrison Co., Ohio. Stated that he enlisted Nov. 19, 1776 and served five months in "the Flying Camp Corps" under 1st Lieut. Rosegrant (Rosecrans) in Capt. Chambers' Co., Col Ephraim Martin's Reg. and that he marched from Sussex Co., N.J. to New York City. On arriving at the Hudson River the British Man-O-War, Asa (Asia) was seen sailing up the river; the troops fired upon it, whereupon one of its cannon burst and killed seven men.

The company went to Long Island, to New York City, to Fort Washington and to White Plains. He then crossed the North River to Fort Lee, N.J. and from there marched under George Washington "to a large field" and left in Col Martin's Regt., which encountered the British Light Horse, in a marsh. Regiment then "wheeled and joined the main army under Washington," who marched them to Elizabethtown, N.J. Records of the U.S. War Dept. show that he served, as a Private, in Capt. Peter D. Vroom's Co., Col. Abraham Quick's Regt. of Somerset Co. Militia. He was discharged in spring of 1777 at New Brunswick, N.J., but was drafted again in Dec. of that yr. and served one month at Woodbridge, N.J. under Lieut. Henry Hoover. N.J. records state that he enlisted 1776, aged twenty years, as a Private in Capt. Abraham Shimer's Co., Col Ephraim Martin's Regt. of State Troops, for five months and that he participated in the Battle of Long Island, Aug. 27, 1776. George Brokaw was granted a pension on Oct.

23, 1832, of $26.67 per year.

He was married in Sussex Co., N.J. to Jane Custard (1752-1850), a daughter of William and Sarah (Swartwout) Custard. The exact time of their removal from Washington Co., Pa, not known, but he and son Abraham were instrumental in the founding of the Crabapple Presbyterian Church, near Cadiz, Ohio, which was founded prior to 1799, and served well for many years, until 1948, when it was torn down to make way for a road into the strip-mining district there. So they may have moved to there shortly after the land transaction. George and family lived in Jefferson and, adjacent to Harrison Cos., where he farmed. He left no will but there are deeds showing that he and Jane transferred land to their sons and others. One or two of later deeds, read, "land given by the President of the United States," - prob. Bounty Lands. George Brokaw died 27 June 1842 in Cadiz, Harrison Co., Ohio and is buried in the Crabapple church cem., and the old headstone which had become dilapidated and almost illegible, was replaced by a new marble headstone which was later marked with a D.A.R. Marker, in July 1955, by members of the Wheeling, W. Va. Chapter of D.A.R. Jane, George's wife, also bur. there, and on her headstone is a verse -

"Soon shall I pass the gloomy vale,
Soon all my mortal powers must vail,
O may my departing breath,
His living kindness sing in death."

Jane was a member of the Moravian Chapter of the Daughters of the American Revolution, and gravestone gives date of death as Oct. 7, 1850; pension rec. of George states that she d. Sept. 8, 1850, at 87 yrs., according to tombstone she was 98 y, 5 m. 6 dys., she was listed in 1850 as 98 yrs. He Died on June 27, 1842 West Whiting, Flushing, Belmont Co, OH. BROWN, CAPTAIN, (Paulding County) [41.112044 -84.420377]

Born ? Died ? Beyond a reasonable doubt, there lies buried at the confluence of the Big Auglaize and Little Auglaize Rivers a Revolutionary soldier, Captain Brown, who was placed in command of the Fort at this location, named Fort Brown, in honor of its commander. A little town was platted by Miller Arrowsmith, in 1835 and was known as Ft Brown, I believe it was the first PO in Brown Twp., Paulding County. Plat in the recorder's office. James Bobenmeyer, Oakwood, OH, has a clear mind running back many yrs. He remembers old portions of the Ft. He says that not only Capt Brown, but two other soldiers possibly Rev. were buried there. He stated that the 3 graves were in evidence quite plainly until a granary covered the spot. Fur infor Albert Blakeslee, Treasurer of Paulding Co. 1928. Sent in by Ft Defiance Chap. BROWN, WHITE, (Ross County) [39.48901 -83.09928]

White Brown was born in Delaware in 1749, on his father's farm. A faithful student, he acquired a good education, and having become proficient as a surveyor, made the first plat of Sussex County, Delaware. He served as a soldier in the Revolution, and was a conspicuous worker in the early history of the Methodist Episcopal Church in America. He visited the Northwest Territory in 1799, and soon after became a permanent settler in Ross County. From a history of Ross County, which, with Highland County, was published in 1880, we quote as follows: "White Brown, if not actually the first white settler of Deerfield Township, was first in matters of public improvement. He was a man of intelligence and very strong religious belief. He had, in 1781, built a Methodist Meeting House in his native state, it being known as Brown's Chapel. In 1799 he came to the Northwest Territory and explored quite a section including Ross County. In 1801 he returned to Ross County, accompanied by his sons and slaves (forty in number), which he later freed. He bought 500 acres of land in what is now Deerfield Township, which was then an unbroken forest, and pending the time when it should be cleared his sons and negro servants raised a crop of corn on the land now occupied by the Ross County Infirmary. In 1802 he built a log house on his land, and in 1803 the remainder of his family joined him, and in that year he built a commodious log barn. In that building from 1803 until 1818, were held the services of the pioneer Methodist Episcopal Church of Deerfield. His son-in-law, Steven Timmons, was the first to preach there. Later Bishops Francis Asbury, Whatcoat, and McKendry, also George and Lorenzo Dow, and the Finleys, father and son, preached there." In 1805 he erected a saw mill on his farm on Deer Creek, it being the first mill in Deerfield Township. He Died on March 25, 1842, aged 93 yrs. and Buried at Browns Chapel Cemetery, Deerfield Twp., Ross Co., OH. Ref: D. A. R. member, Mrs Wm Higley, Chillicothe. BUCK, EDMUND, (Morrow County) [40.48110 -82.82310]

Born ? He served in the revolutionary War. He married Anna Hubble; children: Phoebe b 1819 & J.T. Edmund Buck built a cabin in Peru Township and made small

improvements, but in 1817, having sold this land, he went into Lincoln Township to find a farm. He rode up to where the Sunbury road and Cardington and Chesterville pike cross, and, looking the farm all over, decided to purchase it if he could find the owner. On his return, however, he met a Stranger, and, as was the custom in those days, stopped to exchange news, and soon learned that he was the man he sought. His name was David Finley, and, going over the property together, they concluded the sale, Buck turning in his horse as part of the purchase price. The land was originally one of three lots granted to John Montour, a son and heir of Montgomery Montour, who served in the Revolutionary army as captain. The original warrant, signed by Thomas Jefferson as President, and James Madison, Secretary of State of the United States, is in the possession of J.T. Buck (Edmund's son).

Edmund gave a site for this denomination, Quakers, and a frame building was erected on the Sunbury road, just north of the pike, about 1850…An acre of ground was bought by this society, in 1857, for cemetery purposes, on the northeast corner of Lot 36, in Section 2, and in 1877 or 1878 the church building was moved on to this property…Just across from this cemetery is a private cemetery of the Buck family, where lie some of the older members of that family.

Many veterans buried in family cemeteries, neighborhood plots or small church burial grounds which are now extinct and or built over during the disappearance of rural areas and the increase of urban communities in Crosby Township and/or Hamilton County during the late 19th century or 20th century are now lost to our knowledge. Their families having re-located, their descendants now not knowing their homes, deeds, and/or burial locations lead to their obscurity. SAR Ancestor # P-124349.

Jedediah received 2 wounds by a Horseman's' sword one of which was in the forepart of the head and the other on the left side of the neck. He was in the direct service of Capt. Cheesman when he was killed a few minutes before General Montgomery fell. After both the Capt. & General's deaths the company retreated and returned to New York for about 5 months when on March 18, 1776 he enlisted for one year in the service under Capt. Thomas Patterson of the 3rd NJ Regiment which served under Col. Elias Dayton which also was attached to Gen. William Maxwell's Brigade. On that following March 18, 1777 he reenlisted in the same company. Jedediah continued under Capt. Patterson's command for the space of 4 1/2 years until Thomas Patterson was promoted to Brigade Major & Jedediah was affixed under Captain William Mitchell's command still of the 3rd NJ Regiment. Jedediah was at Valley Forge when General George Washington was from Dec 1777 until June 1778 under Captain Thomas Patterson's command. Jedediah was at the battle of Brandywine, Germantown, Monmouth, Springfield, and various other skirmishes. At the battle of Springfield, Col. Elias Dayton requested Jedediah take charge of a field position to annoy the enemy in their advance, after those who had the charge of it fled. They were able to stop the enemies rapid advance while his Colonel was encouraging him bravely doing his duty, and soon after the Continental were victorious in this battle. He continued in Captain William Mitchells company to the close of the war. February 1782 Col. Dayton recommended to General George Washington to discharge Jedediah on account of family concerns and he had served his term. He was discharged in November 1782. Many veterans buried in family cemeteries, neighborhood plots or small church burial grounds which are now extinct and or built over during the disappearance of rural areas and the increase of urban communities in Millcreek Township and/or Hamilton County during the late 19th century or 20th century are now lost to our knowledge. Their families having re-located, their descendants now not knowing their homes, deeds, and/or burial locations lead to their obscurity.

CARPENTER, JOHN (Coshocton County) [40.30490 -80.91240]

Born in 1735 in Happshire County, England to father William (1799-_). Served in Virginia Line, Quartermaster Sergeant of State Garrison Regiment, Served 3 yrs. Discharge given June 1, 1781 by Thomas W. Ewell, Captain Commanding. He had been captured by Wyandot Indians, but escaped from the Moravian town near Sandusky and got to Fort Pitt. "The regiment remained in the service of the Continental Army until late 1779 when called back to Virginia." Carpenter was later sent to the Ohio Valley toward the end of the Revolution, where "he became an associate of Lewis Wetzel, the Zanes and other famous frontiersmen. His adventures would fill a volume." Wetzel and the Zanes were associated with Fort Henry (present-day Wheeling, in Ohio County, West Virginia), so this is presumably where John Carpenter was stationed. He mustered out on 1 June 1781, while General Cornwallis's troops were raiding through the Virginia heartland. But John was already in the middle of a war zone and, as a private citizen, he continued fighting, with his family at his side. He Married Nancy Beaver (1739-1806) around 1760 in WVA; children: Susannah b. 1765, Edward b. 1761, George b. 1767, Elizabeth b. 1772, Sarah b. 1776, Nancy b. 1775, Mary b. 1778, William b. 1783 & Thomas b. 1786. CLAPSADDLE, DANIEL (Columbiana County) [40.6959 -80.7373]

Born on February 20, 1756 in York County, Pennsylvania to Parents Johann Michael (1722-1787) and Catherine Bardt (1725-1795) Clapsaddle. He served as a Captain in the Pennsylvania Militia commanding a Company of Cumberland County, PA Militia. He married Christine Windborn (1760-1842); children: Anna Mary, William, John, Christina, Daniel and Jacob. He died on May 27, 1813 in Center Township and buried at Jordanville Cemetery, Steubenville Pike Road, Lisbon, Columbiana County, OH 44432.
Cemetery notes and/or description: Established in 1808. Also known as, Old Presbyterian Cemetery and Old Dutch Cemetery. The cemetery has been sadly neglected for decades (possibly for over a century). The entire cemetery has not been cleared, has grown into woods and is mowed infrequently. Many of the remaining stones are broken and covered in underbrush. Some stones are piled around trees. Other stones are lost to history. There are military veterans in this cemetery. Abner Allison served in the War of 1812 with Capt. Harbaugh's Company of Light Dragoons. Daniel Clapsaddle was Captain of the Cumberland County PA Militia during the American Revolution. John Thompson was a veteran of the War of 1812. Jacob Shawk was a veteran of the American Revolution. Nothing has been done to honor these patriots. Nobody cares. In recent years, a few independent groups have tried to clean up the cemetery (ie a Boy Scout troop and a public school class). The village of Lisbon has all kinds of excuses for not taking care of the cemetery, even though many of their pioneers are buried there. The cemetery is located in Center Township, Columbiana County, Ohio. DAR Patriot Index Centennial Edition, Part 1, p. 571. CLARK, JOHN (Tuscarawas County) [40.639586 -81.455061]

Birth is unknown He served as an Ensign in the 13th Virginia Regiment in Colonel Campbell's Company commanded by Colonel John Gibson for at least October to

February 1779 in OH. He died on February 23, 1779 with a group who were ambushed while gathering firewood at Fort Laurens and killed by Indians under the command of the British. The Americans completed the construction of Fort Laurens—named after Henry Laurens, president of the Continental Congress—in early December 1778 under the command of General Lachlan McIntosh. The fort, built on the west bank of the Tuscarawas River was to serve three purposes. First, the Americans hoped to use Fort Laurens as a base to attack the British garrison located at Detroit. Second, it would hopefully deter American Indians loyal to the British from conducting raids against American settlers in eastern Ohio and western Pennsylvania. And finally, by offering protection to the neutral Christian Delaware's, the Americans might convince them to forsake their neutrality and join the patriots' cause.
In total, 21 soldiers lost their lives at Fort Laurens after a handful of British soldiers and a couple hundred Wyandot, Mingo, Munsee, and Delaware warriors laid siege to the fort before it was abandoned in 1779. Later, part of the fort was demolished during the building of the Ohio and Erie Canal. Currently none of the original fort remains above ground, but the outline of the fort is visible.

CLARK, WILLIAM (Ross County) [39.3242 -82.9861]

Born in 1758 as a freeman in York County Virginia, to John Clarke, a free mulatto, and Judith a white servant of Joshua Slade. William Clerke, aka William Clark, served in the Revolutionary War with Lt. Col. John Jameson. Col. Jameson resided in Culpepper County, as did Clark. According to Col. Jameson, Clark served with him in 1780 and 1781. During these years Jameson's unit was stationed in North Castle, New York. When British spy John Andre, who was relaying a message from Benedict Arnold betraying the American cause in August of 1780 was captured, he was delivered to Col. Jameson, Clark was apparently present with Jameson during the transfer of Andre. Whether Clark acted as bodyservant, cook, courier, or teamster is unclear, but people of color often did these jobs during the Revolution. He was at the Battles of Germantown and Monmouth and served to the close of the war. In addition, there were some people of color who participated by fighting as a soldier. He married Hannah Peters in Stafford County, VA. It is not clear when they came to Ohio, but William is

listed as a "Free Man of Color" in the 1810 Culpeper County. Virginia Census (seven in family) and made his application for a Revolutionary War pension there in 1818- 1820. A Clerk of Courts ' record titled "Regulating Black and Mulatto Persons of Ross County. Ohio" (p 53-55) shows Wi1liam's free registration. and as being the same person of the name and a Revolutionary War veteran from Culpeper County. Virginia. By 1830. the widow had returned to Culpeper County, Virginia where in the Census she was listed as a "free woman of color" and head of the household (and again in 1840). Her widow's pension in Culpeper County, Virginia was administered after her death which occurred on 31 Aug 1847, with four children surviving including: Coleman b. 1798, "Kitty" b. 1799 and" Betsey" b. before 1799.

CLEAVELAND, WILLIAM (Tuscarawas County) [40.639586 -81.455061]

Birth site and Date is unknown He served as a Private in the 9th/13th Virginia Regiment in Colonel Campbell's Company commanded by Colonel John Gibson for at least October to February 1779 in OH. He died on February 23, 1779 with a group who were ambushed while gathering firewood at Fort Laurens and killed by Indians under the command of the British. The Americans completed the construction of Fort Laurens—named after Henry Laurens, president of the Continental Congress—in early December 1778 under the command of General Lachlan McIntosh. The fort, built on the west bank of the Tuscarawas River was to serve three purposes. First, the Americans hoped to use Fort Laurens as a base to attack the British garrison located at Detroit. Second, it would hopefully deter American Indians loyal to the British from conducting raids against American settlers in eastern Ohio and western Pennsylvania. And finally, by offering protection to the neutral Christian Delaware's, the Americans might convince them to forsake their neutrality and join the patriots' cause.
In total, 21 soldiers lost their lives at Fort Laurens after a handful of British soldiers and a couple hundred Wyandot, Mingo, Munsee, and Delaware warriors laid siege to the fort before it was abandoned in 1779. Later, part of the fort was demolished during the building of the Ohio and Erie Canal. Currently none of the original fort remains above ground, but the outline of the fort is visible.

COBURN, PHINEAS (Morgan County) [39.39596001 -81.6917038]

Phineas Coburn was born in Sturbridge, Worcester, Massachusetts on September 12, 1766. His father was the Patriot Major Asa Coburn. In 1781, at the age of fifteen, he enlisted as a Private in the Continental Army in Captain Clarke's company in Sturbridge. It is likely that he was recruited into the army by his father. In 1783, Phineas was discharged as a Sergeant. It was in Waterford, Ohio that he participated in the Indian Wars during 1789. Phineas married 1) Patience Olney on July 18, 1798, in Waterford, Washington, Ohio. Patience died after 1804 (date unknown), and it is not known where she is buried; children: Theodore b. 1804. On April 7, 1788, Phineas, along with a group of forty-eight other men of the First Association of the Ohio Company, led by General Rufus Putnam, arrived in Ohio at the confluence of the Muskingum and Ohio Rivers and established Marietta as the first permanent settlement of the new United States in the Territory Northwest of the River Ohio. Later Phineas married the widowed 2) Polly Waterman Spencer (1793-1862) on May 1, 1817, in Washington County, Ohio.
In 1819, Phineas submitted a deposition to the Pension Board asking for a pension for his services during the War. His pension was granted.
Phineas remained near Waterford for the remainder of his life. He died on September 29, 1848 and is buried in the Andrews Cemetery in Morgan County, Ohio. The cemetery is located directly across the Muskingum River from the town known as Relief Station. Phineas is recorded on the Ohio Roster of the Revolutionary War soldiers who are buried in that state.
After Phineas had died, his widow Polly submitted several legal documents asking for Phineas' pension to be adjusted to correctly reflect his length of service and his rank. Copies of the original deposition and subsequent legal filings are on file in the War Department Archives. His original pension was $80 annually, and his widow Polly was asking that it be adjusted to either $96 or $120 depending on which Pension Act was used as the basis. Many veterans buried in family cemeteries, neighborhood plots or small church burial grounds which are now extinct and or built over during the disappearance of rural areas and the increase of urban communities in Columbia Township and/or Hamilton County during the late 19th century or 20th century are now lost to our knowledge. Their families having re-located, their descendants now not knowing their homes, deeds, and/or burial locations lead to their obscurity.

History of Belmont and Jefferson Counties, published in 1880 by Historical Publishing Co. Wheeling WV. Page 413:
"Among the first settlers were the Danfords, Perkinses, Beans, Reads, &c. ...The Danfords, perhaps were the earliest permanent settlers. ...The first member of the

family, of whom it is now possible to get any account, was Peter Danford, the son of Samuel Danford and Mary Groome, who was most likely born in Brunswick, Burlington County in the state of New Jersey, in the year 1739.
He was a farmer and was married to a Sarah Morris in New Jersey. From this union they had four children: Samuel, William, Sarah and Rebecca. After the death of his first wife, he married Mercy Ewing, by whom he had one son -Ambrose. His second wife died in 1793.
Between 1785 and 1796, Peter Danford moved with his family to Washington county, Pennsylvania, where he settled on Patterson creek. From this point his sons, Samuel, William and Ambrose, came to Captina Creek, Belmont County, Ohio, about 1797, and located in Section 4, Washington township, where they cleared a piece of ground, built a cabin, and planted some corn, after which Samuel and William returned to Patterson creek for the family, leaving Ambrose to take care of the crop and look after the interest of the new home in the woods.
After an absence of several weeks, the boys returned to their frontier home, bringing with them their father and sister Sarah, the younger sister, Rebecca having been left at Patterson creek. She was brought over perhaps, the following year. The family remained at this place for several years, till Peter entered land on Bend Fork, in Section 23. In 1803, Peter Danford married his third wife, a widow, Margaret DeLancy, by whom he had two children, twin daughters. He died in 1827. His wife Margaret died in 1835."

It served for kitchen, parlor, sleeping room, class room and chapel. Many a weary itinerant "fed and feasted there". DICKERSON, THOMAS (Washington County) [39.52860 -81.06170]

Thomas Dickerson was the Great Great Grandson of William Dickerson, who came to America around 1640 from Brampton, England, settling in Prince Georges County, Maryland, where the Dickerson's lived as Planters for the next three generations. Thomas Dickerson was born in Tazewell, Virginia on October 15th, 1757. Eventually the Dickerson Family moved to Western Pennsylvania. In August of 1776 Thomas Dickerson, along with two of his Brothers, enlisted into the 8th Pennsylvania regiment in Kittanning, Pennsylvania. In December, 1776, the 8th Pennsylvania received orders from General Washington to march to Continental Headquarters in New Jersey, arriving in January of 1777 after walking over 450 miles, across Pennsylvania in the dead of Winter, lacking adequate food, clothing and shelter! A short time later 100 men from the 8th Pennsylvania, including Thomas Dickerson, were reassigned to Colonel Daniel Morgan's Rifle Regiment. In August the Rifle Regiment was assigned to General Gates Northern

Campaign, where he participated in the Battles of Freemans Farm and Bemis Heights, (collectively known as the Battle of Saratoga.) After the British Defeat at Saratoga, New York, Morgan's Riflemen returned to Headquarters near Philadelphia, where a small detachment of Riflemen, including Thomas Dickerson, joined the Virginia Troops, under General La Fayette. In December of 1777 the British retreated to Philadelphia and General Washington's troops went into Winter Quarters at Valley Forge.
In June of 1778 Thomas Dickerson rejoined the 8th Pennsylvania Line and marched first to Fort McIntosh in Beaver, Pennsylvania and then to present day Zoar, Ohio, to construct Fort Laurens.In August of 1778 Thomas Dickerson was discharged in Pittsburgh, after serving over three years of service. In 1790 Thomas Dickerson married Margaret Davis of Western Pennsylvania and they settled in Western Virginia, near Wheeling. Over the next fifteen years Thomas and Margaret had nine children, four sons and five daughters. In 1795 Thomas Dickerson travelled to Kentucky, looking for a new homestead. Finding most of the choice property already taken, he then travelled north to Marietta, Ohio and purchased a farm near the village of Grandview, approximately twenty miles east of Marietta. Here Thomas and Margaret remained for the rest of their lives, serving as farmers and well respected citizens of Washington County Ohio. Margaret Dickerson died in 1822 and Thomas died in August of 1827 (some records show that he died in 1836). Various efforts have been made over the years to locate their graves, however, to date, the final resting place of Thomas and Elizabeth Dickerson has not been found? Some speculate that they were buried somewhere on their farm near Grandview, Washington County Ohio. There is a memorial plaque honoring Thomas Dickerson, located in the Revolutionary War Veterans Cemetary in Marietta, Ohio. DAR# A034588. Revolutionary War Graves Register. Clovis H. Lucy died 15 March 1840 in Ohio. She, along with Ephraim and many of their descendants, is buried near the southeast corner of the Senecaville Cemetery one-half mile from the old Ephraim Dilley homestead where his son Robert Dilley lived in later years. Ephraim and Lucy had six sons and two daughters; all but the youngest two sons were born in New Jersey. All eight children lived to maturity. The gaps between birth years hint that other children may have died during infancy and been buried in New Jersey. On 8 May 1870, Robert Dilley wrote a letter to his brother Ephraim Jr. listing the ages that his brothers and sisters would have been in

1870. He also listed the birth and marriage dates of Ephraim's children. Four of the children lived to be over 70 years of age and Abraham was 90 when he died. This record of family robustness and longevity is remarkable for children born in the 18th century when medical treatment was primitive. DUBS (DUPS, TOOPS), JOHN (Ross County) [39.3319 -83.0967]

Born on September 22, 1746 in East Hanover Township, Lancaster County, Pennsylvania to parents Hans Jacob Dubs and Barbara Wierick. He served as a drummer in Captain Thomas Coppenhaver's Company, Lancaster County, Pennsylvania Militia, John also served as a private in the 3rd Class of Captain David Krase's 4th Company of the 2nd Battalion. He married Christena (1753-1819); children: Daniel b. 1774, Henry b. 1777, John b. 1781, E1izabeth, Catherine, Jacob, Samuel b. 1786, Barbara, Leonard b. 1790, Anna b. 1797 and Adam. Since John Dups, on the death of his father, chose as guardian, Henry Waggoner, a blacksmith, it is believed he became a blacksmith as well as a farmer. The only tradition has come down about his generation is that the sons were bound out to learn a trade. This was the custom of the time and not confined to orphans. Ross County, Ohio was a raw frontier in 1800 and the records kept were few and scanty. The first tax record found lists John Dups paying tax on 100 acres of land in Twin Township on Waugh's Run in 1808. He paid his tax (something like 75 cents per year) up until 1818 the year he died. The probate record is very brief and appears under the name of John Toops, although the tombstone (which still exists and is legible in the Moore Cemetery on the Cincinnati Pike, Twin Township, Ross County, Ohio) lists it correctly as Dups. He died on April 1, 1819 in Twin Township. Ross County. Ohio and is buried n the Moore Cemetery, US Route 50, Twin Township, Ross County, Ohio. DULIN, JOHN SR., (Wayne County) [40.93090 -82.05380]

Born on May 21, 1760 in Wetzel County, VA. He served with VA in the Revolutionary War. John served several "tours" during the Revolution, the most "interesting" of which occurred during the spring and summer of 1780. In April of that year John left his home in Washington County, PA, descended the Ohio River to what is now Louisville, KY, and joined 30 other men in the interior of Kentucky. In July the men were sent to join a force of 900 others on the Ohio River. The force was commanded by none other than George Rogers Clark (the hero of Vincennes). The captain of the scouting party was Simon Kenton, the legendary Kentucky and Ohio frontiersman. The expedition was given the unenviable task of entering Ohio territory and pursuing Indian forces under

Chief Black Hoof up the Little Miami River to "punish" the Indians for killing settlers in the Kentucky territory. Clark's force made their way to the Indian village of Chillicothe (not to be confused with the current Ohio city) only to find the village deserted. Pressing on up the Little Miami, Clark met and defeated the Indian forces at a location now encompassed by George Rogers Clark Park near Springfield, OH. The battle that ensued is remembered by various names: the Battle of Pickaway (a.k.a. "Piqua," a.k.a. "Peckuwe") Plains. The encounter was reportedly the largest battle of the Revolution fought west of the Allegheny Mountains. He married Sarah Sharp (_-1843); Children: John Dulin, Jr. Pension file #W10765. DUNLAP, ANDREW (Tuscarawas County) [40.639586 -81.455061]

Birth Unknown. He served as Sergeant in the 13th Virginia Regiment. Andrew Dunlap enlisted 15 June 1778. He was in Capt Robert Beall's Company under Col. John Gibson. He was stationed at Fort Laurens in what became Tuscaraswas County, Ohio, at least from October 1778 to February1779. He was one of eighteen men who went out of the fort to get firewood. They were ambushed by the Indians under the command of the British and sixteen were killed and two were captured. The Americans completed the construction of Fort Laurens—named after Henry Laurens, president of the Continental Congress—in early December 1778 under the command of General Lachlan McIntosh. The fort, built on the west bank of the Tuscarawas River was to serve three purposes. First, the Americans hoped to use Fort Laurens as a base to attack the British garrison located at Detroit. Second, it would hopefully deter American Indians loyal to the British from conducting raids against American settlers in eastern Ohio and western Pennsylvania. And finally, by offering protection to the neutral Christian Delaware's, the Americans might convince them to forsake their neutrality and join the patriots' cause. In total, 21 soldiers lost their lives at Fort Laurens after a handful of British soldiers and a couple hundred Wyandot, Mingo, Munsee, and Delaware warriors laid siege to the fort before it was abandoned in 1779. Later, part of the fort was demolished during the building of the Ohio and Erie Canal. Currently none of the original fort remains above ground, but the outline of the fort is visible.

EMERICK, MICHAEL ((Montgomery County) [39.61126 -84.36607]

Born February 10, 1756 in Bethel Township, Berks County, Pennsylvania. He was baptised on March 20, 1756 by Reverend Decker, Reformed Minister. Sponsors were John Jacob Emrich and his wife Anna Maria. He Served in the Revolutionary War in Captain Shepler's Company 1770-1780. Accounts of Lt. Captain Folmer's Company, Berks County, Pennsylvania, shows him listed at Lieutenant 8th Class. He Married Christina Kantner (1755-1838) on September 22, 1778 (daughter of Jacob Kanter of Tulpehocken Township) in Christ Lutheran Church in Stouchsburg, Pennsylvania. Children: Susanna b. 1781, Henry Abraham & John William b. 1799.
He was received into the Lutheran faith May 16, 1761. Reverend J. P. Hentz in his book "History of the Evangelical Lutheran Congregation in Germantown, Ohio" wrote as follows; "Michael, the oldest (speaking of the four Emrick brothers), born in Berks County, Pennsylvania, February 10, 1756, came here in 1806, and purchased the land on which at present stands Conover's Mill, on which he lived until removed by death, which event took place October 14, 1820. He was a man of means and purchased at once land for those of his children who were grown up to years of maturity. Himself a strict and consistent member of the Lutheran Church, he brought up all his children in his own faith. Two of these, Mrs. John Stump and Mrs. John Stoever are still living - the others have gone to their final rest. He frequently held official positions in the congregation, and contributed largely to its support. Reverend Hentz also gives a thumbnail sketch of the Emrick brothers in his book "Twin Valley and its Settlement and Subsequent History". Michael Emrick – died on October 14, 1820. He and his wife Christina are buried in the Sunbury Cemetery, Sunbury, German Township, Montgomery County, OH.
At the time of writing this Emrick genealogy, the Sunbury Cemetery is in a deplorable condition. A number of years ago, pigs owned by the tenants of the adjoining old schoolhouse that was converted into a home, played havoc with the grounds, up-rooting many of the tombstones. Michael's marker was one of them. Reference: Pennsylvania Archives, Third Series, Volume 6, page 320. EVINS, CHARLES (Tuscarawas County) [40.639586 -81.455061]

Birth site and Date is unknown He served as a Private in the 13th Virginia Regiment in Colonel Campbell's Company commanded by Colonel John Gibson for at least October to February 1779 in OH. He died on February 23, 1779 with a group who were ambushed while gathering firewood at Fort Laurens and killed by Indians under the command of the British. The Americans completed the construction of Fort Laurens—named after Henry Laurens, president of the Continental Congress—in early December 1778 under the command of General Lachlan McIntosh. The fort, built on the west bank of the Tuscarawas River was to serve three purposes. First, the Americans hoped to use Fort Laurens as a base to attack the British garrison located at Detroit. Second, it would hopefully deter American Indians loyal to the British from conducting raids against American settlers in eastern Ohio and western Pennsylvania. And finally, by offering protection to the neutral Christian Delaware's, the Americans might convince them to forsake their neutrality and join the patriots' cause.
In total, 21 soldiers lost their lives at Fort Laurens after a handful of British soldiers and a couple hundred Wyandot, Mingo, Munsee, and Delaware warriors laid siege to the fort before it was abandoned in 1779. Later, part of the fort was demolished during the building of the Ohio and Erie Canal. Currently none of the original fort remains above ground, but the outline of the fort is visible.

FALKNER, WILLIAM (Hamilton County) [39.103 -84.513]

He served in Pennsylvania during the Rev. War. and on the 1820 Rev. War pension list. Buried near his farm. Many veterans buried in family cemeteries, neighborhood plots or small church burial grounds which are now extinct and or built over during the disappearance of rural areas and the increase of urban communities in Ohio Counties during the late 19th century or 20th century are now lost to our knowledge. Their families having re-located, their descendants now not knowing their homes, deeds, and/or burial locations lead to their obscurity. Gravesite unknown.
